

15 September 1954

MEMORANDUM FOR: Director of Security

SUBJECT : Approval for Speech of Col. White, Attached

1. I have coordinated the text of the attached speech with DD/I's Office, and have received their approval on what has been said relating to the overt collection function.

2. I have also checked out the references to Germany and Iran with DAD/CI and with DD/I, and both have given their approval to the substantive references made herein. In fact, it was OCI which supplied me the background material that has to do with the Soviet Union and Iran. The only changes made in the course of their approval had to do with substitution of the phrase "Soviet leaders" for "Russia," on the theory that our official stand should be that we are only unhappy with Russian leadership, not with the peoples of the USSR.

3. Your approval of the speech will enable me to proceed with having it duplicated for transmission to the Director of Publications, International Association of Chiefs of Police. Unfortunately, their deadline for submission of the text was 10 September, so your expeditious handling will be greatly appreciated.
